

USE THIS SCARY FACE AS A STENCIL TO HELP YOU DESIGN THE FACE FOR YOUR PUMPKIN. DON'T FORGET TO ASK AN ADULT FOR HELP WHEN THE TIME COMES TO CUT OUT THE SHAPES!

Note to parent or carer: Small children often want to help when carving pumpkins but the process requires sharp knives and other dangerous tools. A good way to keep children involved while keeping them safe is to let them remove the pulp from the pumpkin and draw the design on it's surface. You can also give them smaller pumpkins to decorate with magic markers whilst you carve the main pumpkin.
